

Project Proposal Instructions

Please start working on the first deliverable, to submit a project proposal document.

The project proposal should contain the following information:

Project Proposal (approximately 500 words):

- **Objective:**
 - Problem Statement, Need for the solution.
- **Solution Approach:**
 - Description about how the problem will be resolved - Solution, Research, Methods, Technologies.
- **Expected Project Results**
 - Success Criteria that is expected at the end of the project.
 - Ex: Workable prototype / an application that solves the problem etc.
- **Technical Supervising Faculty**
 - The faculty who will be guiding you in the project.
 - External Supervisors / Organizations -- if applicable.

Please review the proposal with your supervisor faculty of the project.
